

Electro-Magnetic Buzzer

TYD Series

- TYD series are magnetic transducer with built-in reliable discreted oscillation circuit
- Optional Rated Voltage range: 1.5 , 3, 6, 9 and 12 V respectively.
- SMD type on T&R are available upon request.

1. Electrical Characteristics

Type: TYD01, TYD03, TYD06, TYD09 and TYD12

Rated Voltage: 1.5 , 3.0 , 6.0 , 9.0 and 12.00 V DC

Operating Voltage: rated voltage \pm 2V DC

Rated Current (mA) : Max 30

Sound Pressure Level (dB) : Min 85/10cm

Resonant Frequency (Hz) : 2300 ± 300

Operating Temperature (°C): - 20 to +70

2. Mechanical Dimension (unit:mm)
